

Elangovan D

Tamil Nadu, India | +91 9080358586 | elangomano17@gmail.com | [Online Portfolio](#)

Profile Summary

Result-oriented **.NET Developer with 3 years of experience** in building scalable web applications and REST APIs using **ASP.NET Core, MVC, and C#**. Expert in biometric authentication, digital signing, and cloud-native solutions. Skilled in modern front-end frameworks like **Angular and Blazor**, with strong expertise in **SQL Server and MySQL** database optimization. Proven track record in deploying containerized applications via **Docker and Azure DevOps**.

Technical Skills

- **Languages & Frameworks:** C#, ASP.NET Core, ADO.NET, MVC, MVVM, Web API, OOP, Python(Basics)
- **Frontend:** Angular, Blazor, JavaScript, Typescript, HTML5, CSS3, Bootstrap, JQuery
- **Databases:** SQL Server (MSSQL), MySQL.
- **DevOps & Cloud:** Docker, Azure DevOps, Jenkins, Linux (Application Deployment & Management).
- **Tools & Version Control:** Git, GitHub, Agile/Scrum, Postman, Locust (Load Testing)

Professional Experience

Software Engineer (L5) | ClaySys Technologies, Kochi, India | 2023 – Present

- Developed and maintained scalable RESTful APIs using ASP.NET Core Web API for biometric authentication systems including face liveness and voice verification, handling secure session creation, media upload, processing, and result retrieval.
- Develop RESTful APIs in ASP.NET Core for high-security biometric liveness and digital verification systems.
- Build and maintain the Nextly ESign digital signing application using MVC and MySQL, deployed via Docker on Linux.
- Collaborate with AI/ML teams to integrate facial recognition models into backend services.
- Improve system performance through SQL query optimization and implementing caching strategies.
- Contribute to Agile Scrum teams, participating in sprint planning, code reviews, and CI/CD pipelines.
- Configured and managed MySQL InnoDB Cluster with MySQL Router for High Availability (HA) on Production Linux Servers, ensuring Database Failover, Redundancy, and Continuous Service Availability.

Key Projects

Face Liveness Detection System

Technologies: ASP.NET Core Web API, MSSQL, AI/ML Integration, Docker, Locust

- Designed and developed **REST APIs for facial liveness detection** to prevent spoofing attacks in biometric authentication systems.
- Integrated **AI/ML models** for facial recognition and liveness detection with backend processing services.
- Performed **load testing with Locust**, simulating thousands of concurrent users and optimizing API performance.
- Used in **KMAC 2026**, a large-scale public event in Kerala, for real-time biometric identity verification.

Nextly ESign – Digital Signing Platform

Technologies: ASP.NET Core MVC, MySQL, Docker, Linux

- Developed a **digital document signing workflow** including document upload, signer configuration, signing process, and certificate generation.
- Implemented **PDF certificate generation** with signer details, timestamps, and digital signature validation.
- Built **multi-tenant architecture** supporting organizations, clients, environments, and user groups.
- Implemented **document verification and audit trail system** for tracking signing activities.
- Designed **database structure in MySQL** for document storage, signer tracking, and audit logs.
- Deployed the application using **Docker containers** and configured Linux servers for hosting.
- Implemented **role-based access control** for secure document access and signing operations.

Resort Booking System

Technologies: Angular, ASP.NET Core API, SQL Server

- Developed a **resort booking web application** for room booking, guest management, and reservation tracking.
- Built **responsive UI using Angular and Bootstrap**.
- Developed backend APIs for booking management, room allocation, and customer records.
- Implemented **booking availability logic and payment tracking**.
- Designed relational database schema for booking and customer management.

Education

Bachelor of Engineering (CSE) Shree Venkateshwara Hi-Tech Engineering College, Erode, Anna University, Chennai | 2019 – 2023 | **CGPA: 8.3**
