Erode, Tamil Nadu, India | +91 9080358586 | elangomano17@gmail.com | [Online Portfolio](#)

Profile Summary

Senior Software Engineer with 3+ years of experience designing and developing scalable ASP.NET Core applications, RESTful APIs, and biometric authentication solutions. Experienced in cloud-native deployments using Docker and Kubernetes, High Availability database architectures, and CI/CD automation. Proven track record of leading enterprise projects, mentoring developers, and delivering secure, high-performance solutions in Agile environments.

Technical Skills

Languages: C#, Python, JavaScript, TypeScript

Backend: ASP.NET Core, ASP.NET MVC, Web API, ADO.NET, MVVM

Frontend: Angular, Blazor, HTML5, CSS3, Bootstrap, jQuery

Databases: SQL Server, MySQL, Qdrant

DevOps & Infra: Docker, Kubernetes (k3s), Azure DevOps, Jenkins, Harbor Registry, Linux, IIS, CI/CD

Testing & Observability: xUnit, Moq & OpenTelemetry, Jaeger, Grafana, Prometheus

Tools: Git, GitHub, Postman, Locust, MinIO, Agile/Scrum

Professional Experience

Senior Software Engineer | ClaySys Technologies, Kochi, India – Remote | 2026 – Present

- Led two projects from development through deployment, coordinating technical execution and mentoring a team of 5+ engineers.
- Implemented monitoring and alerting solutions using Grafana and Prometheus to track application and server performance and proactively identify issues.
- Drove CI/CD automation, deployment standardization, and production support for Linux-based environments.

Software Engineer | ClaySys Technologies, Kochi, India – Remote | 2023 – 2026

- Developed and maintained scalable RESTful APIs using ASP.NET Core Web API for biometric authentication systems, including face liveness and voice verification.
- Configured and managed MySQL InnoDB Cluster with MySQL Router on Linux servers, enabling High Availability (HA) and automated failover.
- Collaborated with AI/ML teams to integrate facial recognition and biometric verification models into production systems.

Key Projects

Face Liveness Detection System

Technology Stack:

ASP.NET Core Web API, Blazor, MSSQL, AI/ML Integration, Docker, Locust, Vector Database

Key Responsibilities & Achievements:

- Designed and developed RESTful APIs for facial liveness detection and biometric authentication.
- Integrated AI/ML models for facial recognition and liveness verification.
- Optimized API performance through load testing with Locust, simulating thousands of concurrent users.
- Deployed and supported the solution used for real-time biometric verification during KMAC 2026.

Nextly ESign – Digital Signing Platform

Technology Stack:

ASP.NET Core MVC, MySQL, Docker, Linux, CICD Pipeline

Key Responsibilities & Achievements:

- Developed document upload, signer management, signing workflow, and certificate generation modules.
 - Implemented PDF certificate generation with signer details, timestamps, and signature validation.
 - Built a multi-tenant architecture supporting organizations, clients, environments, and user groups.
 - Designed document verification and comprehensive audit trail functionality.
 - Designed and optimized the MySQL database schema for document management and audit logging.
 - Deployed applications using Docker and configured Linux servers.
 - Implemented role-based access control (RBAC) for secure document access and signing operations.
-

BPO Suite MFA

Technology Stack: ASP.NET Core Web API, SQL Server, SendGrid, IIS

Key Responsibilities & Achievements:

- Designed the system architecture, database schema, and end-to-end workflow for a secure BPO platform with Email-based Multi-Factor Authentication (MFA).
 - Developed RESTful APIs using ASP.NET Core Web API for user authentication, authorization, OTP generation, verification, and account management.
 - Integrated SendGrid to deliver secure Email OTPs and authentication notifications.
 - Successfully deployed the application on IIS and delivered the solution to the internal team, providing deployment and workflow documentation.
-

Education

Bachelor of Engineering (CSE) Shree Venkateshwara Hi-Tech Engineering College, Erode, Anna University, Chennai | 2019 – 2023 | **CGPA: 8.3**
